bloomz

What is it?

"Bloomz is the easy to use, secure app that connects parents, teachers, and school administrators to build stronger communities around children. Bloomz helps teachers save time in their communication with parents. Parents stay engaged with their school community, and on top of their child's world. Also, schools can deeply connect and coordinate with their community, effectively increasing engagement, satisfaction and retention." - Bloomz.net

In other words, without sharing each other's phone numbers, we can stay in touch through our phones or other devices. I will be using this app to post homework assignments, updates, announcements, reminders and even LIVE pictures of what we are doing in class! You can also choose to communicate with other parents within our class.

Getting started:

1. Simply search "Bloomz" in the app store on your phone or tablet.
(*If you do not have a phone or device, you can create an account using a computer at bloomz.net)
2. Sign up and join your child's class using the access code that I have provided for you.
